

Islam's Conquest of America One Town at a Time

By John Guandolo

From Minneapolis (MN) to Hamtramck (MI) to Falls Church (VA) to Paterson (NJ) and many other towns and cities across the fifty states, the Islamic Movement is quietly conquering America.

The federal government sleeps, many state governments - including those controlled by Republicans - do their best to accommodate muslims waging Civilization Jihad against America, and the hard-left Marxists - including nearly all of the local and national media - are collaborators in the enemy's efforts.

As UTT has [previously reported](#), **Minneapolis, Minnesota** is currently enemy-held territory and will require force to take back.

Somali Muslims in Minneapolis

Hamtramck, Michigan is a small suburb of Detroitistan, and is the first town in America to have a majority muslim city council. This formerly Polish-Catholic town has been overrun by sharia-adherent muslims who have already achieved accommodations for sharia in the community.

Falls Church, Virginia is home to the Muslim Brotherhood/Hamas' Dar al Hijra Islamic Center. The Muslim Brotherhood leader of Dar al Hijra, Sheikh Shaker Elsayed (former President of the MB's Muslim American Society), recently gave a [lecture promoting female genital mutilation](#). Dar al Hijra is a jihadi factory whose property is owned by the MB's bank NAIT (North American Islamic Trust).

Al Qaeda's Anwar al Awlaki was the Imam of the Dar al Hijra beginning in January 2001 and serving for over a year there.

The community around Dar al Hijra has been taken over by sharia-adherent muslims. Law enforcement calls the two twin apartment buildings in the area "Taliban Towers," and the number of jihadis in this area of Northern Virginia, only minutes from the nation's capital, is significant.

Historically, **Paterson, New Jersey** has been a melting pot of Irish, Germans, Dutch, Italians, Eastern Europeans and others. Christians and Jews made a home in this town approximately 20 miles outside of New York City.

Now, estimates put the number of muslims in Paterson at over 30% of the total population. This number - possibly over 40,000 - makes Paterson, New Jersey the town with the one of the highest concentrations of muslims in the United States. Many Turks and Syrians are a part of the muslim community, but the majority are Palestinians/Hamas. Many citizens are concerned for their safety and security.

Muslims on the streets of New York City near Trump Tower on June 1, 2017

What do these four communities - Paterson, Falls Church, Minneapolis, and Hamtramck - have in common?

1. Muslims concentrated their efforts in these communities, built up their numbers, and then asked for accommodations. Once their numbers were significant enough, they made DEMANDS of local officials to accommodate sharia.
2. Islamic leaders (read: Muslim Brotherhood et al) purchased numerous plots of land in these communities - often with funds from Saudi Arabia - and began building of Mosques/Islamic Centers, Islamic schools, etc.
3. Once the mosques were built, land immediately around the mosque was purchased for muslims and, over time, muslims began occupying the land around the mosque up to a radius of approximately 3 miles.
4. Islamic organizations (read: Muslim Brotherhood) began outreaching to local Christian and Jewish leaders, as well as law enforcement and elected officials with positive results. The majority of Pastors and Rabbis stood/stand with jihadis ("terrorists") and publicly defend them because the Muslim Brotherhood's "Interfaith Outreach" efforts work; many elected officials believe they "have to" meet with jihadi leaders to show how "progressive and open minded" they are; and law enforcement remains unaware of the grave threat growing like a cancer in their communities.
5. Collaborators in the media wrote/write glowing stories about how wonderful the muslims are and defend them right up to and, in some cases, after they kill Americans (eg New York Times [defending Anwar al Awlaki](#) after the U.S. government killed him because he was the Al Qaeda leader in Yemen).
6. Elected officials defend and even promote the jihadis. Example: Mayor Jones in Paterson, NJ raised the Palestinian flag over the City Hall and declared "Palestinian-American Day."

Jihadis celebrating "Palestinian-American Day" in Paterson, NJ

Al Qaeda jihadi Anwar al Awlaki (R) and citizen Patricia Morris (L) who organized a "vigil" at the MB/Hamas Dar al Hijra Islamic Center after the 9/11/01 attacks on the United States

Cities which stand up against this onslaught, at least under the previous administration, find themselves fighting a lawsuit from the Department of Justice and U.S. Muslim Brotherhood groups. In Bernard Township, NJ the town council said no to Islamic leaders' request to build an Islamic center/mosque for a number of reasons. The DoJ and the Muslim Brotherhood's Islamic Center of Basking Ridge sued and forced the city to allow the mosque be built.

As each day goes by the problem gets worse and the enemy digs in and enhances their fighting positions in the United States.

UTT encourages all Americans to pay attention to what is going on around them in their community.

The enemy is inside the wall. A muslim representing an Islamic organization has a 99.9% probability of being a jihadi because all of the prominent Islamic organizations in the United States are jihadi/hostile as a matter of fact. Islamic leaders may give a friendly appearance, but they want what ISIS and Al Qaeda want - an Islamic state under sharia.

What are you doing to prevent your town from surrendering to the jihadis in your community? Are you holding your leaders accountable? Are you boldly speaking truth? Do you understand the threat?

Sheriffs and Pastors are the most important people in this war. We will attain victory when sheriff's and their deputies understand the threat and aggressively go after it. Law Enforcement can only do this if

the citizens also understand the threat. Pastors are the key to ensuring that happens, so they must speak truth in love to open the eyes of the American people.

What Can You Do?

1. Help bring UTT Law Enforcement training to your town

The President of the National Sheriff's Association encourages all law enforcement leaders to host UTT's 3-day training program. Share his letter with your local police chief and sheriff and encourage them to contact us via our website. The letter can be found [HERE](#). Also share with them a letter written by senior U.S. government officials supporting UTT and its work. That letter can be found [HERE](#).

2. Bring UTT into your church to educate and train your congregation and leadership

UTT will come to any church in the U.S. and Canada if the church covers all expenses and simply takes up an offering for the team upon completion of the training. Contact us through our website for more information.

3. Educate Yourself

UTT has a number of resources on its website and is currently putting together basic and advanced training packages which will be available shortly for more in-depth training online.

However, in addition to our citizen programs, we also have our Train the Trainer program for those who want to go deep in their understanding of the threat and be able to teach others while defending the information from common rebukes. Please contact us for more information.

4. Be Unafraid

Remember that we are Americans. We have the greatest liberty, greatest prosperity, and greatest open arms of any nation in the history of the world. America is the most generous nation on the planet. We will not tolerate slavery, murder, and injustice. There is good and there is evil. America is a good nation and its people are great. Some want to take advantage of our kindness and mistake our softheartedness with weakness. That is their mistake. We stand for liberty and our cause is just. We do not have anything for which we should be afraid. Stand firm.

5. Support UTT

If you are able to support UTT financially, please do so through our [Americans for America campaign](#). If you cannot, please encourage others to go to UnderstandingtheThreat.com and sign up for our newsletter.
